

Ken Leinbach

Urban Ecology Center
Milwaukee, WI

Ken utilizes a PowerPoint presentation. He can bring the presentation on a flash drive, use Dropbox or Google Slides to run off the event's computer.

He prefers a wireless headset or wireless lav mic. so as to have his hands free

Ken also tends to move around the stage and the room during presentations. If this is not possible, please let Ken know in advance.

Ken likes to bring props. It's good to know if ceilings are 10 feet or higher especially as he enjoys being able to demonstrate one of his points by riding a 6-ft unicycle.

Additionally, Ken likes to have water, avoiding bottled water if possible to demonstrate environmental stewardship.

If you're able to share any video or photos captured during the event with the Urban Ecology Center, it's always appreciated.

If you have any questions, please contact Megan Andrews-Sharer
